**IB - Mathematics, AA, SL
Northfields International School, 2024**

Soumish has been working with my daughter for her 2 last years of scholarship helping her in Mathematics for her IB exam. We were very satisfied with his professionalism, expertise, follow up. He is extremely flexible and accommodating. Soumish is patient, nice and have a very good communication with the kids, including the parents with constant updates on the progress made. We highly recommend him to any family looking for additional lessons and support.

**IGCSE - Ad Mathematics
Northfields International School, 2024**

Zara had the privilege of being taught by Mr Soumish Dev during her preparation for IGCSEs. He made a significant difference in her understanding and appreciation of Additional Mathematics. Mr Dev has an exceptional ability to explain complex concepts in a way that is easy to grasp, which boosted her confidence in the subject.

He always encouraged questions and fostered a positive learning environment, where Zara felt comfortable and motivated to do better.

Thanks to Mr Dev, Zara's grades improved, and she developed a genuine interest in add- math that she never thought possible. I am incredibly grateful for his dedication and passion for teaching. I would highly recommend Mr Soumish Dev to any student looking to excel in Additional Mathematics and Maths.

**Secondary School - Tutoring
Northfields International School, 2025**

I cannot speak highly enough of the incredible support and dedication Soumish has shown over the past two years with both my daughters Selena (Year 10) and Alexia (Year 8). From the very beginning, he built a strong rapport with my elder daughter, Selena, helping her grow in confidence and consistently achieve excellent academic results.

But where he truly stands out is in his work with my younger daughter, Alexia, who has been diagnosed with high ADHD. Teaching a child with such unique learning needs requires extraordinary patience, creativity, and understanding—and he brought all of that and more into every session. He adapted her teaching methods, introduced engaging activities, and worked with a level of empathy that made my daughter feel both supported and capable.

Thanks to his unwavering commitment, we have seen a remarkable improvement not just in academics, but also in our younger daughter's ability to focus, stay motivated, and believe in herself. It's rare to find a tutor who combines skill, compassion, and consistency in such a meaningful way. We feel incredibly fortunate to have him in our lives.

IB - Economics, SL
Northfields International School, 2024

Hiring Soumish as a tutor was an incredible decision. As I'm writing this I have since received my economics grade (the subject I was being tutored in). I have gone from a failing grade to the IB equivalent of an A. The tutoring sessions are what I believe to have been the primary reason as to my improvement. I'd also like to add that Soumish was very good at getting me to focus in class and in addition he was very patient whenever it took me a long time to comprehend a topic or a bit of information. I would highly recommend Soumish as a tutor especially for students who find it difficult to study on their own.

IB - Mathematics, SL
Northfields International School, 2023

When I came across Soumish, I was really struggling and didn't enjoy maths at school at all. I seriously needed some help. But after a couple of lessons, I was seriously shocked to see that, when maths was explained the way Soumish does, I could actually find it enjoyable. I started getting into maths and was excited by the lessons. Learning from him totally changed my outlook on maths, and I strongly recommend that you take lessons with Soumish. He supported and accompanied me every step of the way and beyond

Grade 6/7, Homeschooling, 2023

I am writing to recommend Soumish Dev as a home schooling tutor for your children. He has been working with my daughters for a year and half and has consistently impressed us with his professionalism, expertise, and dedication to our children's education. Soumish has a good understanding of the subjects/topics and has effectively tailored his approach to meet the unique learning styles and needs of each of our children. He is patient, kind, and has a talent for making learning engaging and fun for our children. He is also skilled at identifying areas where our children may be struggling and providing additional support and resources to help them succeed.

His communication skills are exceptional, he kept us informed and up-to-date on our children's progress and areas of improvement. He is also flexible and accommodating, always willing to work with us to adjust schedules or lesson plans as needed

A level Homeschooling, 2022

My son William started to do homeschooling with Soumish more than 1 year ago for multiple reasons and I'm so happy I took that decision. It was the best one. William hopefully will be graduated at the end of the year and has been able to study what he likes by doing homeschooling as those subjects were not accessible through school.

With all that covid issue last year we took the decision to also put our younger children to homeschool as the school by zoom was really not working for them. Again, I would like to thank Soumish for all the hard work and effort that he put in those lessons. My children really enjoyed that year with him and they really learned so much. They happened to do some really nice projects as well and also learned new things by doing homeschooling. For example: They learned coding, they did new subjects as well that are not taught in school here like Global perspectives which they really enjoyed.

A Level - Mathematics

Crash course, Toronto University, 2021

Soumish Dev has been an outstanding teacher! He made me understand and enjoy studying maths like I never did before, as I used to have a lot of difficulties with numbers in school. After 3 months taking classes with him, I am now feeling fully prepared and confident with the subject, ready to start my program in university. I would definitely recommend him to anyone who has problems with maths in school, or even needs preparation for university, as he can adapt to every program. He is also very kind, encouraging, and always made sure I understood everything before moving on to a different topic. 100% recommend!

★★★★★

Soumish Dev, has been an amazing tutor helping me with maths. After struggling in class he has helped me achieve a grade higher than what I was predicted (4/7). I would recommend him to anyone who's struggling with numbers in general. Soumish is amazing at maths and knows all the loopholes in maths which allows him to teach us all the tricks which make maths much easier. He is also a great person in general and great at helping children with rare learning disabilities like dyslexia. It's been great having him as a math tutor!
